Unreal Engine 4

R3DS Wrap

Marmoset Toolbag 4

INTERESTS

- 3D Scanning
- Morph targets
- Cloth Simulation
- Physics
- Facial Animation
- Methodologies

SUMMARY

Character design is my passion. In my art I emphasize deeper storytelling through visuals while incorporating the feeling of believability. No matter what is thrown at me, I can always absorb and express my artistic vision. I am ambitious to learn and adapt to make a successful game. There are limitations in life, but I consider them creative challenges that I can overcome.

EXPERIENCE

Oct 2018 - Aug 2019

Mercer Projects - Jersey City, NJ

Character Artist

- Creating photo-realistic high-quality 3D models.
- Responsible for exporting models and 3D printing.
- Worked closely with concept art and paintings to replicate into a 3D environment.
- Learned new software packages in addition to traditional art methods.
- Created aesthetically pleasing characters that complemented paintings.
- Studied Anatomy in different forms of art mediums.

Apr 2017 - May 2018

SFDS NYC Fabrication & Design - Jersey City, NJ
