NO WAY OUT

How can we find a way out
from the repeated day to day
struggle?

Inspired by the consequence of the emotional
aftermath of Japan's Bubble Economy, this
collection aim to reflect modern people's
depression and anxiety from their busy life.

DREAMSCAPE

This collection inspired by Monet's painting: Springtime. It is a collection which depicts the dreamscape of my childhood memory and the dreamscape of my ideal relationship between human and nature. Instead of invading nature, we need to coexist with nature peacefully.
