- Project Understanding and Approach
- Firm Introduction
- Relevant Projects
- Team Organizational Chart
- Milestone Project Schedule
- Sample 2-week look ahead
- Staffing Chart
- Summary Estimate

- Detailed Trade Take-off
- Value Engineering Proposal
- Construction Site Logistics Plan
- Constructability Review
- Quality Assurance/ Quality Control Plan
- Construction Site Safety Plan
- Sustainable Construction Plan
- Construction Technology Initiatives

Project Understanding

Project Name: Urban Yard

Project Address: 40-09 21st St.

Long Island City, NY 11101

Owner: Elms Realty

Architect: Murdock Solon Architects

Structural Engineer: Bluesky Design

MEP Engineer: 2LS Consulting Engineering

Project Understanding

Scope of Work:

- Project floor area: 86,040 sqft
- Installation of 2 new elevators
- Lobby Renovation
- Tenant Amenity Center, new roof bulkhead
- Public restrooms, main fire stairwell
- MEP systems
- Signage, Flooring, and windows

Firm Introduction

- Founded in 1985 by Hassan Qamar
- Firm Location: 3541 Steinway Street

Long Island City, NY 1101

- Firm Size: \$200 Million Annually
- 225 Full-time Staff
- Internship Program
- LEED accredited professionals

Gantry Point, 25-11 49th Ave, Long Island City, NY

- Office building
- 9 stories, 240,000 sq.ft office space
- Architect: STUDIOS
- Completion: 2020
- Existing building renovation and new construction
- Old industrial building and modern glass building interlocked

129 Lafayette Street, New York, NY

- Building Use: Residential
- Size: 81,000 sq.ft
- Year of Renovation: 2004

Interior renovation of existing building originally built in 1900

New systems, elevators, new structural roof.

5 Court Square, Long Island City, New York, NY 11101

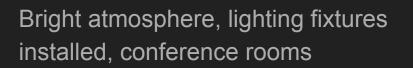

- Building Use: Apartment building
- Size: 80,000 sq.ft, 11 stories
- Architect: My Architect PC
- Year of Completion: 2019
- Demolition of existing structure, new building
- Modernistic glass facade
- 60 luxury apartments, with 10ft ceiling height

Pratt Institute - Student Union

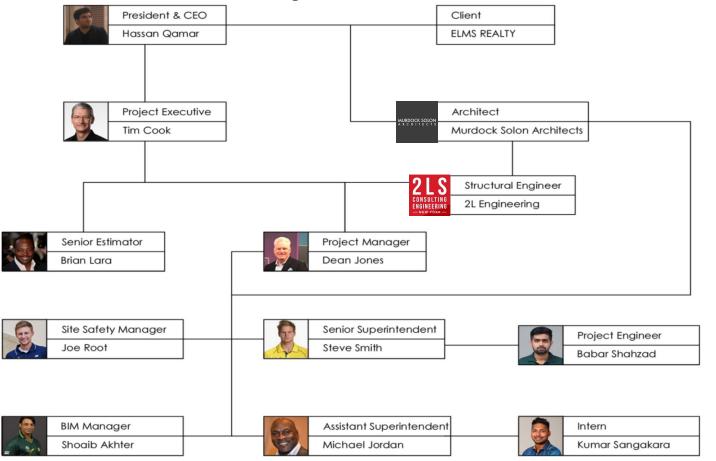

- Location: 200 Willoughby Ave, Brooklyn, NY 11205
- Completion: October 26th, 2019
- Size: 60,856 sq.ft
- Original Masonry Structure built in 1887

Value Engineering Proposal: LT7 light fixture

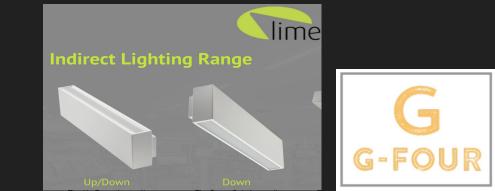

- Brand: Oracle
- Wall mount linear light
- Available in white
- Dimensions: L 2' W 2",4"
- Luminaire Lifetime: L70 at 50,000 hrs

- Brand: Limelight
- Wall mount linear light
- Available in white, black, silver
- Dimensions: L 2' W 2",4"
- Luminaire Lifetime: L70 at 72,000 hrs

from luminaire to luminaire, in a variety of formed angles and shapes. Be inspired to create a long-lasting impression with a unique design that complements corporate offices, educational,

commercial, and retail spaces.

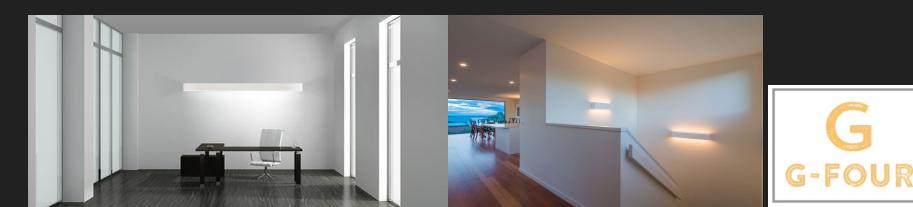

LT7 light fixture

Oracle

- Cost per unit: \$180
- Quantity: 25
- Total Cost: \$4500

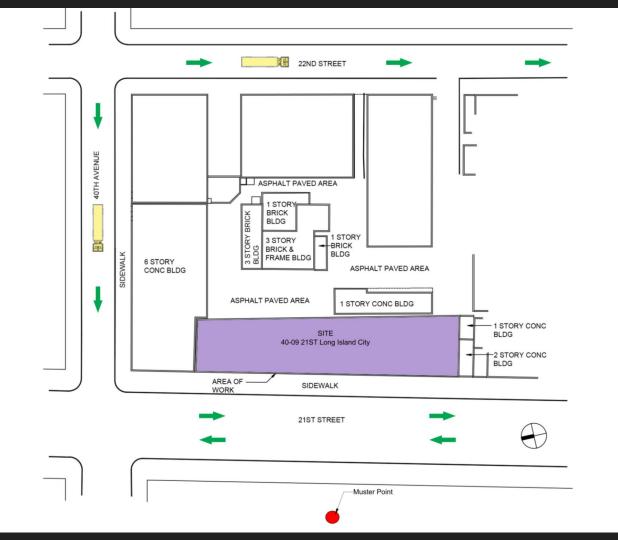

Limelight

- Cost per unit: \$150
- Quantity: 25
- Total Cost: \$3759
- Cost Savings: \$750
- Percentage Saving: 20%

Constructability Review

Issue 1: ADA BATHROOM COMMERCIAL, TYP.

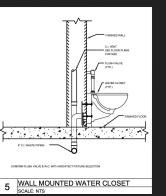

• A-403.00 indicating floor-mounted toilet

Review Drawing

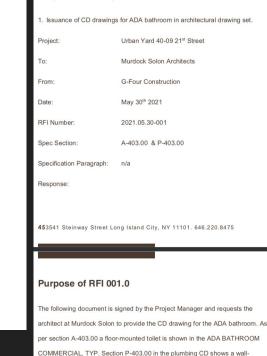

- P-403.00 wall-mounted toilet
- Bowl height adjusted between 15-19"
- Adv: Space Saving, cleaning

D6 ADA BATHROOM COMMERCIAL, TYP. SCALE: 3/8" - 1'- 0"

Request for Interpretation:

mounted toilet. We request if you can please review the specifications and CD drawings and make the following revision in the architectural drawing section A-

Quality Assurance & Quality Control

Quality Assurance:

- Submittals
- Sustainability
- Mock-ups and Sampling

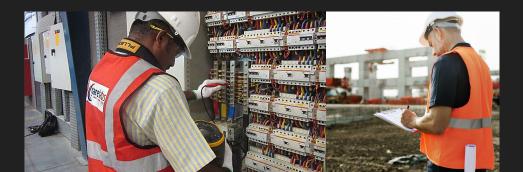

PROCORE

Quality Assurance & Quality Control

Quality Control:

- Delivery Inspection
- Pre-Inspection Checklist
- Material Testing and Inspections
- Commissioning

STANDARD INSPECTION FORM GENERAL PERMIT FOR STORMWATER ASSOCIATED WITH CONSTRUCTION ACTIVITY

	General Information	
Project Name		
Permittee		
NOI#	Date of Inspec	tion
Start Time	End Time	
Inspector's Name(s)		
Green Card Certification #		
Inspector's Contact Information		
Describe present phase of construction	Clearing/Grubbing Rough Gradi	
Type of Inspection: Weekly routine Pre-sto significant amounts of sediment	rm event During storm event [Post-storm event Due to a discharge of
Has there been a storm event sinc If yes, provide: Storm Start Date & Time: Storm Duration (hrs): Approximate Amount of Precipitati	e the last inspection? Yes No	

		Permi	t Coverage and Plans	
	Subject	Status	Corrective Action Needed and Notes	Date Corrected
1	Was an NOI submitted for all disturbed acres?	□Yes □No		
2	Is the permittee listed above still in control of permitted activities at the site? (If no, submit a Transfer of Authorization form to MDE)	□Yes □No		
3	Do the approved plans reflect current site conditions?	□Yes □No		
1	Are the approved E&S and SWM plans maintained at the site?	□Yes □No		
	Have the E&S or SWM plan approvals expired?	□Yes □No		
8	Are all inspection reports and enforcement actions on file at the site?	□Yes □No		
5	Is the site permanently stabilized, temporary erosion and sediment controls are removed or set to be removed, and stormwater discharges from construction activity are eliminated?	□Yes □No		
7	If #6 is Yes, has a Notice of Termination been submitted to MDE?	□Yes □No		

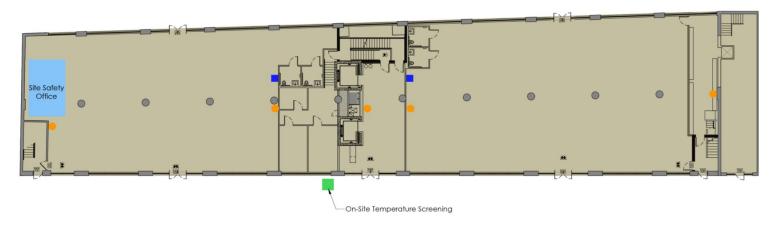

- 0.80 EMR (Experience Modification Rate)
- Weekly feedback, site safety meetings
- Training on handling equipment and machinery
- Risk assessment
- Emergency Muster Point across 21st Street
- FDNY: Engine 44, 221 E 75th St, NY

- COVID 19: On-Site temperature screening
- Social Distancing on site

G-FO

Legend:

- On-Site Temprature Screening
- Site Safety Office
- Eyewash/Handwash Station
- Fire Extinguisher

Fall Prevention:

- Guardrail Systems
- Safety Nets
- Protection from falling objects
- Personal Fall Arrest System (PFA)

Sidewalk: Pedestrian Safety

- Proper Signage
- Work will only be performed

once correct signage is applied

to detour pedestrians from the

site until the scaffolding is fully erected.

Crane and Hoist:

- Daily Inspections
- PPE
- Crane loading capacity
- Crane Management System.

Sustainability

- Buildings generate 40% annual ghg emissions
- Effective sustainability measures at G-FOUR :
- 1. Noise Mitigation
- 2. Waste Management
- 3. Air Quality Control
- 4. Fundamental Commissioning

Sustainability

Construction Noise Mitigation

- Sound Baffles
- Ear Protection
- Low-noise equipment options (acoustic insulators, porous materials such as cloths)

Waste Management

- Labelled waste disposals
- Debris chute

- Recyclable materials
 - (Glass, plastics, corrugated cardboard)

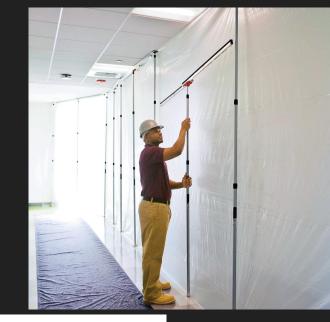

Sustainability

Dust & Air Quality Control

- Dust barrier system
- Air purifier
- HVAC ducts wrapped in

adhesive blue plastic
